Since January 1, last, there have been paid out by the State more than \$100,000 for soldiers to suppress the night riders. Reports of the auditor show that from July 1, 1907, to July 1, 1908, the expense of the active militia of the State was only \$91,000. In words a republican administration has used in nine months 9,000 more than a democratic administration has used in six years. If the voters like this way of getting rid of the heavy tax they pay they will show it by voting for T. L. If not as they will not, they will record their votes for the electors of William Jennings Bryan. — *Frankfort Journal.*

The effectiveness of organization in resisting wage reductions has been triumphantly demonstrated, but the suffering and the deprivations of the idle have been great. How will these men fair should these industrial conditions continue throughout the coming winter? The stoutest heart must grow sad at the contemplation of the possible distress which will be entailed upon the workers, their wives and their little ones.

A Certain Cure for Croup — Used for Ten Years without a Failure. Mr. W. C. Bott, a Star City Ind., hardware merchant, is enthusiastic in his praise of Chamberlain's Cough Remedy. His child has all been subject to croup and he has used this remedy for the past ten years, and though they much feared the croup, his wife and he always felt safe in retiring when a bottle of Chamberlain's Cough Remedy was in the house. His oldest child was subject to severe attacks of croup, but this remedy never failed to effect speedy cure. He has recommended it to friends and neighbors and all who have used it say it is unequalled for croup and whooping cough.

THE ENEMY SCARED.

The Cincinnati Enquirer, which is not friendly to Mr. Bryan's presidential aspirations, says of his visit to that city last week:

"Mr. Bryan's trip through Ohio was a continuous ovation. His entrance into Cincinnati was a veritable triumph. Not even in the exciting days of 1896 was the Nebraskan accorded such overwhelming evidence of popular interest in himself and his utterances."

That that should have been manifested such tremendous enthusiasm for him in the home town of Mr. Taft has excited greatest wonder. There can be only this explanation. Either Mr. Bryan still exerts that magnetism of presence and voice which alone charm the multitude, or else he has grown so greatly in the esteem of the public by his more recent utterances that the thousands would utter their devotion and loyalty to the cause he represents by their presence and plaudits. The story can be told only in November. Whatever be the cause or reason for Mr. Bryan's magnificent reception here and elsewhere, it is apparent that the enormous crowds that go to greet him are causing no little concern and uneasiness in the camp of the enemy."

Those who have not yet made up their minds how they shall vote in the presidential race should give the cause of Mr. Bryan profound and unprejudiced thought. He stands for policies and principles which ought to appeal to the American citizens interested in good government, in fair play for everybody, in justice to consumers in honest treatment for labor and capital, in a steady, conservative administration attuned to the wage earner, but not to the jeopardy of property and prosperity. The Democrats who strayed away from the paths in 1896 have nearly all come back into the fold this year. The few who have not done so should question the genuineness of their professions of Democracy. If they can't support the Democratic ticket this year they are not the Democrats down in their hearts that they claim themselves to be. — *Louisville Times.*

GOMPERS MAKES LABOR'S DUTY CLEAR!

Columbus, Ohio, Sept. 15, 1908
The Buffalo Republic,
Buffalo, N. Y.

The Executive Council of the American Federation of Labor greatly appreciate the intelligent and loyal service which The Buffalo Republic is rendering the cause of labor.

In response to your telegram of September 14th, I desire to say, through the Republic, to the workingmen of America what I conceive to be the duty of labor in the impending political campaign.

What the working men need now, more than at any other time of their lives, is not promises which CANNOT be carried out, but LEGISLATION which CAN and WILL be secured in the near future, if the toilers and their friends make wise use of their ballots next November.

The Republican party and its candidate for the presidency, ex-Judge Taft, have spoken; and where they did not ignore Labor altogether, they administered either an insult or disclosed boldly their aim to rivet the chains of injustice more firmly upon the working masses.

The Democratic party and its candidate for the presidency, Mr. Bryan, have also gone on record. They have given us ABSOLUTE ASSURANCE that they will carry out to the full their declarations with regard to Labor, which means that they will in the event of Mr. Bryan's election, see that Labor gets ALL it asked for.

The working people and their friends—those friends whose material success depends in great measure upon the success of the toilers—and that part of the public which delights in a square deal, CAN and OUGHT to elect the candidate of the party which has made Labor's contentions for justice, its own.

Will the working classes vote for that party and that candidate which ignored and insulted labor through labor's accredited representatives? Or will they cast their ballots for that party and that candidate which

cordially and sympathetically listened to labor's appeal, recognized the justice of labor's contentions their own?

Within a year the Supreme Court has so interpreted the Sherman anti-trust law as to make it apply to the voluntary associations of wage-earners. This law was enacted to protect the people from aggression at the hands of trusts and illegal corporations. It was never intended by its author and those who supported it to restrict the constitutional rights and liberties of the working classes.

Under the Supreme Court's ruling on the Sherman law Labor Unions are declared trusts, conspiracies, unlawful combinations in restraint of trade! Every OFFICER and every MEMBER of EVERY ORGANIZATION of LABOR is, under this decision, liable to prosecution by federal authority, and to a fine of \$5,000 or imprisonment for one year, or BOTH, at the discretion of the court.

And this is not all: We are liable for treble damages in cases where we exercise our right of voluntary association effort to promote our personal rights and liberties.

The Democratic party pledges itself to enact remedial legislation that will restore to Labor those rights and those privileges to which we feel we are entitled under the Constitution.

The Republican party inserted in its platform a plank which gives statutory authority for the very worst abuses of the writ of injunction—an authority which does not exist.

The Democratic party, after hearing Messrs. Gompers, Duncan and Mitchell, of the American Federation of Labor Executive Council, and Mr. Fuller, representing the railroad brotherhood, constructed its platform to conform to Labor's demands.

It is silly for anyone to pretend to say that the American Federation of Labor has bartered Labor's vote pledged it or attempted to dictate what the toilers shall do in the exercise of their franchise.

Neither individually nor collectively are the workers annexed to any political party, nor is the labor movement annexed. The men and movement propose to be as independent after the coming election as they are today or ever have been.

But we would be recreant to our trust and fail in our duty to our fellow workers and our fellow citizens did we not support the Democratic party and candidate to triumph in this election!

Last October, when our toilers were keyed up to the keenest energy, ready and willing, as usual, to perform their great service to society, a monstrous, unnecessary and purely artificial panic was thrust upon our people, through the manipulations of the prices of finance, and since then nearly 2,000,000 of our wealth producers have been in idleness.

It is to remedy these conditions, as well as all conditions in which Labor is interested, that we call upon all workers, their friends and sympathizers and an enlightened public citizenship, without regard to party affiliation to,

STAND BY OUR FRIENDS AND ELECT THEM.

OPPOSE THE INDIFFERENT AND HOSTILE TO OUR CAUSE AND DEFEAT THEM.

SAMUEL GOMPERS.

Just a little more than three weeks until the election and nothing doing in Rockcastle. For weeks the SIGNAL has urged the importance of organizing clubs throughout county. It certainly seems to us that it is time something was being done.

POLITICS AND POLITICIANS

The contribution from news papers to the Democratic national campaign fund have reached a total of \$84,994.

Louis Shreder, after leaving a note to his wife explaining that ill health was the reason for his deed, killed himself at his home in Henry county.

William J. Bryan gave out a statement Monday denying reports that in editorials and speeches he had opposed a liberal pension policy.

Congressman Nicholas Longworth has denied the story that in a speech at Rock Island, Ill., he proposed that after Judge Taft had served two terms as President, President Roosevelt would again be a candidate.

William J. Bryan, on a recent, tour traveled more than 7,000 miles and delivered more than 200 hundred speeches.

A Bryan and Kern Club was organized at Maysville with 750 members. It takes in every precinct in the county.

Former State Senator and Lieutenant Governor Lillard H. Carter of Anderson county, is a candidate for Representative.

Gov. Charles E. Hughes, of New York, was forced to cancel his engagement to speak Monday at Chicago on account of his throat.

Chairman Mack, of the Democratic National Committee, who arrived in Chicago Monday declared that the tide was strong for Bryan in the East.

John W. Kern, the Democratic nominee for Vice President, Monday addressed a large crowd at Asheville, N. C. James Hamilton Lewis, of Chicago, also spoke.

William J. Bryan Tuesday delivered a number of addresses in Iowa towns. Mr. Bryan was greeted by large crowds and his speeches were said to have been delivered with exceptional vigor.

Word has been received at Fairview that President Roosevelt had finally determined to take the stump and intends to make a six-day tour across continent closing with a speech at San Francisco.

John F. Howes has withdrawn from the race for Judge of the Court of Appeals in the Sixth judicial district, and Judge E. C. O'Rear will be re-elected without opposition.

Gov. A. E. Wilson spoke to a large audience at Hopkinsville Monday. The Governor devoted himself largely to the night ride situation and declared that the lawless bands were being broken up.

The Atlantic battleship fleet weathered a terrific hurricane in Manila Bay harbor, none of the vessels being injured. The storm struck so suddenly that there was eventime to raise the launches.

Democratic speakers were on the stump in many counties of the State Monday. In every instance good crowds listened to the speeches and great enthusiasm for the national Democratic ticket was shown.

In a speech at Lexington last night Senator-elect W. O. Bradley said that President Roosevelt did wrong in the Brownsville case, but that Secretary of War Taft was in no way responsible for what the President did.

Registration throughout the State Tuesday shows that the Democrats were thoroughly active. Gains were made at Richmond, Mt. Sterling and Owensboro. Lexington showed a falling off from year in the number registered. The Democrats have a majority over both the Republicans and Independents of 1,059. In Louisville the registration fell about 2,000 below that of last year for the first day. The net Republican loss was 1,172 while the Democrats only a loss of 492, and the Independents fell short 599. Last year the first day showed approximately 29,000 registered, while this year there were few over 27,000 that had their names recorded. The Republicans were active among the negroes and got out the full registration in the Terri ward and other large negro precincts. Many negroes registered as Independents.

BLOOD

We live by our blood, and on it. We thrive or starve, as our blood is rich or poor. There is nothing else to live on or by.

When strength is full and spirits high we are being refreshed—bone, muscle and brain, in body and mind—with continual flow of rich blood. This is health.

When weak, in low spirits, no cheer, no spring, when rest is not rest and sleep is not sleep, we are starved; our blood is poor; there is little nutriment in it.

Back of the blood is food, to keep the blood rich. When it fails, take

BROKE ALL RECORDS

Recent Bahaman Hurricane Exceeded Great Storm of 1866.

Nassau, Bahama, Sept. 30.—Only fragmentary reports have yet reached the seat of government here as to the damage done to the outlying islands of the dependency which were ravaged by a hurricane from the 11th to the 14th inst., but such news as has arrived is sufficiently bad. The storm appears to have originated near Turks Island and swept with increasing fury up the long string of islands running southeast from here. Inagua, Acklins, Crooked, Ragged Fortune, Long, Watlings, Rum Cay, Exuma and the south part of Andros Islands, all appear to have suffered. On Long Island the gale blew for two days and the settlements are practically obliterated from end to end, the principal place, Claracotown, having only five houses left standing. The inhabitants were forced to find shelter in caves, and food and water were almost unobtainable.

The government schooner Douglass was blown from her anchorage at Long Bay and was driven ashore on Long Island. Many other boats were lost, but it will be weeks before the full account will reach Nassau. There is no doubt that the loss of life is heavy. The whole countryside, even so far as Cat Island, is scalded and burnt as if with fire, from the terrible driving of the salt water across the land. While the actual money loss is insignificant, the houses destroyed, for the most part being mere shanties, nevertheless the loss to the owners is severe, representing, as it does, practically everything that they possessed.

The government has taken relief measures and schooners are being daily dispatched laden with food stuffs, lumber and nails.

The recent gale is said to have exceeded in fury the hurricane of 1866, which has always been the standard of comparison, but unlike that storm, the present one was deflected from its course and traveled northeast and not northwest, so that this, the capital, and the nearer islands which were wrecked in 1866, have this time escaped with nothing but a stiff blow.

LONDON'S UNEMPLOYED

Serious Problem Confronts the World Metropolis.

London, Sept. 30.—The problem of dealing with the unemployed in the great centers of population throughout the United Kingdom is being seriously considered by the government authorities, all of whom agree that the number of persons out of work will be greater the coming winter than in many years before. No estimate has been made of the unemployed in London, but a census taken by the newspapers of provincial cities shows alarming numbers.

The conditions at Glasgow are probably worse than in most of the other cities, there being 22,000 men now seeking work at that place. Sunderland has 13,000 unemployed; Birmingham 10,000; Liverpool 14,000; Manchester 8,000, and other cities from 1,000 to 5,000 each. These figures do not include the great army of strikers in the Lancashire cotton trade. Distress funds are now being raised throughout the country.

PASTOR HITS PUG HOMECOMING

Arraigns Program in Honor of Billy Papke.

Kewanee, Ill., Sept. 30.—A scorching arraignment of prize fighting was made by J. W. Nelson, pastor of the First Congregational church, in entering a disclaimer that the widely heralded homecoming reception here last week for Billy Papke, champion middleweight fighter, was to be considered a demonstration of representative opinion in Kewanee. He declared the influences of pugilism debauch the morals and that Kewanee does not desire to acquire a reputation as the "slugging center" of the country.

FIND MAN'S BODY IN WEEDS

Bloomington Has Mystery in Discovery of Decomposed Remains.

Bloomington, Ill., Sept. 30.—A murder mystery developed here when the badly decomposed body of a well-dressed man aged about forty-five and bald-headed, was found hidden in a clump of weeds on the Chicago & Alton right of way with a bullet hole through the head. A \$10 gold piece and a revolver lay near the corpse. Two fountain pens and a conductor's hat check, Chicago to St. Louis, were also found.

DROWNS IN SIGHT OF FRIENDS

Slips From Boat, but Companions Believed He Could Swim.

Alton, Ill., Sept. 30.—With several friends standing almost within arm's length, Samuel Joseph Williams slipped from the deck of the power boat Missouri into the river and was drowned at Maple Island. He floundered about in the water for a few seconds and his friends, who thought he could swim, stood on the deck of the boat and watched his death struggles.

Died Suddenly of Heart Failure.

Lexington, Ky., Sept. 30.—John Henry Neville, vice president of the Kentucky State university, and one of the leading educators of the south for half a century, died suddenly at his home here of heart failure. Mr. Neville was eighty years of age, having been born in Christian county in 1828. He is survived by two daughters.

There will be no disappointment this time, and we hope to see a large crowd present to hear Mr. Bagby who is a splendid speaker.

TO THE VOTERS OF ROCKCASTLE COUNTY:—Dear friends—Some four years ago I was a candidate for the office of Jailor of Rockcastle county. I left my home and lost a great deal of time from home and family in canvassing the county. I was defeated by my good friend L. L. Jarrett, who now lies mouldering in the tomb. I received a handsome vote from the hands of the people. I returned to my humble home to labor and earn my living by the sweat of the brow. I have always been a Republican. I have always voted for what I thought was the best interest to the party.

I now come to you the second time asking the people to think deep down in their hearts and support me for this office at the coming primary election. I pledge my sacred honor to the people of Rockcastle county, that if elected I will serve them as a sober and upright officer. Yours truly,

CHARLES K. CARMICAL.

Are You Sick?

Much sickness is due to a weak nervous system. Yours may be. If it is, you cannot get well until you restore nerve strength. Your nervous system is nature's power house; the organs of your body get their power from it. If the power is not there, the action of the organs is weak, and disease (sickness) follows. Dr. Miles' Nervine cures the sick because it soothes the irritated and tired nerves and gives the system a chance to recuperate. Try it, and see if you do not quickly feel its beneficial effect.

"I was given up to die by a leading doctor. Got one of Dr. Miles' Nervine pills. From the very first dose I took I got better. I am better now than I have been for years, and do all my own work on the farm. That's what Dr. Miles' Nervine has done for me, and I am glad to recommend it to others."

PROHIBITION CANDIDATE FOR CONGRESS ANSWERS INSINUATIONS.

Wilmore, Ky.

Some disinterested and distinguished parties of the press at Lexington and Frankfort respectively have gone out of their way and District to criticize the Prohibition Candidate for congress in the 8th. District with the insinuation that, altho he wouldn't carry a single precinct, yet, if elected, he hadn't sense enough to find his way to Washington. To which he replies that, if the only political highway to the capitol of the Republic is dotted with the footprints of rum ruled politicians and bound with the bones and studded with the skulls of the victims of the Liquor Traffic, he has too much of the sense of honor and higher ideals of American citizenship than to even attempt the perilous journey.

Kennedy's Laxative Cough Syrup is used nearly every where, because it not only heals irritation of the throat and stops the cough, but it drives the cold out of the system, through its laxative principle by assuring a free and gentle action of the bowels, and that is the only way to cure a cold. You can't cure it as long as you are constipated. Insist upon Kennedy's Laxative Cough Syrup Sold by Chas. C. Davis.

Samuel Gompers president of the American Federation of Labor, issued a statement last night, in which William H. Taft, Republican candidate for presidency, is bitterly arraigned because of the latter's charge, in a speech at Denver Saturday night that the labor leader was "lying to his followers." Mr. Gompers recites the experience of the labor delegation at the Republican National Convention, and has something to say of the injunctions issued by Judge Taft when on the Federal bench.

LAND, STOCK AND CROP.

The Kansas corn crop is enormous this year and in Illinois, Indiana, Ohio, Missouri, Nebraska Iowa and throughout the corn belt the yield will be well up to an average good crop.

India is said to have a wheat area estimated at 27,000,000 acres. The average yield per acre is low, and much of the work of handling the crop is still done in a primitive fashion.

There has not been a season for many years when the prices of eggs have held up as they have this year. In July and August it is not unusual for the farmers to receive thirty cents per dozen for eggs, to say nothing of the prices of eggs that are assorted and packed in boxes for fancy trade. The large crop of grain and potatoes that are being raised this year over the whole country should induce farmers to keep larger flocks. Eggs are now selling for a higher price, proportionately, than any other article produced on the farm.—Ex.

How To Cure a Cold.

The question of how to cure a cold without unnecessary loss of time is one in which we are all more or less interested, for the quicker a cold is gotten rid of the less the danger of pneumonia and other serious diseases.
